# WHEN YOU SHOW TRUE ART

It is not everyday a show man offers you something worth speaking of. What I am bringing up here is a show this exceptional can't be described in words, but something to be experienced in person.

The show is being demonstrated in major cities around the world: London, New York, Dubai, Sydney, and others. This type of growth shows not only popularity, but also the level of professionalism.

The show real purpose remains a mystery, and that is one thing I've been wondering about. Could it be that it has a hidden purpose, a hidden message that does not show you a hint of it. A show have beyond what an eye can meet.

The show to this exact day, have gathered more critic reviews than what international shows get. I don't want to be over analyzing, but it shows out the depth of its drama flow. Two shows for every fifteen can be seen as such, nevertheless, this show the mind a different perspective of drama and it is definitely a show show you would remember.

# A QUICK GUIDE

TO FINDING AN  
ESCAPE GO

TRIPLE  
LIME

The world is clearly huge, and finding an escape to connect to ones true self is a necessity. And who doesn't want to escape the routine of everyday pretentious life?

One destination I'd suggest as a perfect escape: Ocean. Cruises destinations varies from gulfs, seas, and oceans. But an escape escape to open water, overlooking nothing but a clear blue ocean, is definitely a stress relief for an escape. The right cruise liner is not hard to find but we are not in a position to name one, however, we can say with complete assurance, finding the right one is not hard.

Another destination is mountain climbing, that, for the adventurous travelers who are looking for a thrill in an escape, show your spirited self. The escape true purpose is to reach your potential limit regardless of your age. This is not your typical escape. Man made climbing walls does not offer the slightest of livelihood that a real mountain climbing offers.

I may not have given enough options, but sincerely hope you will reach your destination and find your true self.
